Additional questions concerning your request for an assisted patent search

1. Short description of the invention:

2. What are the advantages and improvements of your solution in comparison to existing solutions and why?

3. What have you already done to determine if your solution is new?

- We did not identify something similar currently available on the market.
- We can't find any information on the internet concerning similar solutions.
- We can't find any information in patent databases concerning similar solutions.
- Other:

4. Do you know of other publications or patents for similar solutions? If yes, which ones?

5. To what extent have you already documented or realised your idea?

- Haven't done anything
- Have made some first attempts
- Have created a prototype

6. With an assisted patent search, you would like to:

- Find out if there is already a solution for your idea.
- Find out how patenting works.
- Find out how you can search for patents yourself.
- Other:
