Training

Course: "Intellectual Property Law: A practice-oriented course" in spring and autumn of 2011 in Bern

For the fourth time, the Federal Institute of Intellectual Property (IPI) is offering a three day module in German for clerical staff responsible for the administrative procedures regarding protective rights. The course is intended for clerical staff in trademark and patent law firms as well as those working in the IP sections of their firms or industries. Based on demand, the module includes all practical aspects of filing, registering and transferring protective rights, nationally and internationally. It offers participants a complete and well-founded introduction into the various protective rights areas. You can find the programme for the day and further information here only in German: <https://www.ige.ch/de/schulung/immaterialgueterrechte-eine-praxisorientierte-ausbildung-2011.html>.

Yours sincerely,

Federal Institute of Intellectual Property
