

Assisted Patent Search

Do you have an innovative idea – and want to know how you can protect it?

Gain some insight together with a patent expert over the course of half a day. First of all, the expert from your field of speciality will answer your questions all about protecting your innovations. Then together you will look at how new your idea or invention is by searching in public patent databases for similar or identical inventions. You determine the appropriate search terms and a suitable search strategy together with the expert. You can take home with you any matching patent documents and citations found, on a USB stick.

The benefits for you

- You learn everything you always wanted to know about patent protection, for example, what your invention must have so that it can be patented, how various application procedures differ, what you should pay attention to following the granting of a patent and how you can also protect an invention without patenting it.
- You familiarise yourself with searches in patent databases.
- You get an initial overview of the prior art so you can evaluate whether your invention is new and if it is worth filing a patent for it.

Where

Swiss Federal Institute of Intellectual Property, Stauffacherstrasse 65/59g, CH-3003 Bern

Conditions

- The assisted patent search is only carried out in the presence of the client and lasts for up to a maximum of four hours.
- We search exclusively in publicly accessible data.
- Every company and private individual can take advantage of up to two assisted patent searches within a twelve-month period.
- You receive up to 50 matching patent citations free-of-charge and the associated complete patent document for up to 20 of these citations as a PDF file.

Please note

- Due to time and database limitations, we cannot carry out a complete search. If you require a comprehensive overview of the prior art, we recommend that you request an in-depth search. You can find more information about this on our website at www.ipi.ch/patent-searches.
- We practice complete confidentiality regarding all information exchanged between you and the IPI as well as concerning the search results.
- If you wish to file a patent for your invention following the patent search, we recommend that you involve a patent attorney. He will help you with the formulation of the application and the technical documentation. Both the results of the assisted patent search and our advice have no influence on the examination of your patent application.

Fee: CHF 300 including VAT (Art. 3 para. 2 of the IPI Fee Ordinance)

Would you like to request this search? Please send us a completed and signed request form or request a search online at www.ipi.ch/basic-searches. We will then agree upon a date with you.
