## Trade Mark Searches (Foreign) – Price List

All searches are carried out in cooperation with AvantIQ. Prices for other searches are available upon request.

**Word Identity:** Identical word marks search.

**Word Similarity:** Comprehensive search for identical and similar word marks which could conflict with yours. Offers an essential decision-making basis for registering trade marks abroad.

**Figurative Similarity:** Comprehensive search for trade marks containing the same or similar figurative elements. For EU countries, we recommend also searching the EUTM register in order to obtain a fully comprehensive result.

### EU countries

**Additional searches in foreign countries:** Please contact us.

### Delivery

The reports will be sent as a Word attachment per email within the time period given (workdays). Reports can be mailed within Switzerland via the postal service for an additional CHF 10.00 (see request form). An additional one to two workdays must be expected for delivery.

### Please note

- All prices are per trade mark searched and do not include VAT.
- The trade mark searches are based on the international Nice Classification of Goods and Services. The list can be found on our website ([www.ipi.ch](http://www.ipi.ch)) or we can send you a copy. Please include on the order form the Nice class numbers or the exact description of the goods and services for which you wish the search to be done.
- For searches done within Europe, the report will list the goods and services classes in the language of the country in which trade marks are identified; for searches outside of Europe, the report will be delivered in English.
- European Union trade marks (EUTM) are registered with the European Union Intellectual Property Office (EUIPO) and are valid throughout the whole European Union.
- IR trade marks are international trade marks of the World Intellectual Property Organization (WIPO).
- CMKO stands for Cross Market Knockout Search. It is a search for identical, phonetically identical and multiple forms of a trade mark in more than 160 global registers.
- Note on Figurative Similarity: If the figurative element must be searched with a code from category 26, 27 or 29 of the Vienna Classification, the listed price increases by 50%.
