

## Trade Mark Searches (Switzerland) – Price List

Our trade mark searches and monitoring include all trade marks registered for protection in Switzerland – i.e., Swiss trade marks and international trade marks with extended protection for Switzerland. International trade marks without extension for Switzerland may also be included in the search report at no extra cost if the appropriate box on the order form is ticked.

**For general information and a list of our trade mark monitoring services, see reverse side**

**If you are interested in other searches – for example, for a particular trade mark type (3-dimensional trade marks, color marks, guarantee marks, etc.) – we'd be happy to make you an offer. Just contact us.**

## Trade Mark Monitoring

Over the period of one year you'll be informed monthly of any newly registered or changed trade marks and trade mark applications for marks which could be considered similar or identical to yours. The reports are generally sent as a Word attachment per email, or, if requested, they can be sent per post for an extra charge of CHF 60.00 per year. The first monitoring report will be sent 3 workdays after the request has been received at the latest.

**Automated monitoring report:** Relevant trade marks are searched via our automated search software and sent to you without evaluation by our search experts.

**Prepared monitoring report:** Our search experts evaluate the results of the automated search. Any trade marks clearly posing no danger of confusion to your mark are eliminated from the list. The report you receive is clear and easy to interpret.
